

The 21st Century Community Learning Centers (21st CCLC) Program offers academic, artistic and cultural enrichment opportunities to students and their families during after school hours. These opportunities aim to meet state and local students' performance standards in core subjects such as Reading, Math and Science.

Our 21st CCLC Programs are designed to offer students a broad array of activities that reinforce and compliment the regular academic program.

- Our programs are offered at no cost at the participating school.
- Free transportation is provided at most schools.
- Activities are offered before school, after school, and during the summer.
- A nutritious snack is provided daily.

21st Century Community Learning Centers

Mission Statement

To equip students with the necessary strategies and skills to be successful academically, socially, emotionally and physically through meeting the program objectives.
